For Immediate Release

Support and solutions for people with disabilities, not silence

In the run up to our election, each political party gets to set out their vision for BC if we were to elect them to lead the province. It is with great disappointment that, in reading each party's platform, we, the Board of Disability Alliance BC see that people with disabilities are invisible to all parties - in a province where 25% of people are disabled. We call on all parties to recognize that people with disabilities have unique needs that have only been exacerbated by the ongoing pandemic, and we look to them for support and solutions, not silence.

Pam Horton, Chair
On behalf of the Board of Directors
Disability Alliance BC
