

## **BCITS/KINSMEN FOUNDATION'S 3rd ANNUAL GOLF CLASSIC**

*~A door can be a serious impediment to accessibility for people with disabilities~*

The 2014 BCITS/Kinsmen Classic Golf Tournament was a tremendous success raising nearly \$25,000 to fund important programs for people with disabilities in BC. Near and dear to the hearts of Kinsmen and BCITS is a program which installs Electronic Door Openers in the homes of people with disabilities in BC, enabling access, enhancing quality of life, and **Opening Doors to Independence!**

**How many doors would you go through on an average day?** This simple task likely would not even cross our minds but not so for people with disabilities. Thanks to the money raised through our Annual Golf Tournament, BCITS and Kinsmen are able to provide Electronic Door Openers so people with disabilities are finally able to get in and out of their homes or apartments without struggle, anxiety, and stress.

If you or someone you know would like more information on this life changing program, please fill out an application form at <http://bcits.org/becomeclient.htm> or call 604-326-0175 to apply for a door opener.

To help us further this worthy cause, please consider supporting the BCITS/Kinsmen Golf Tournament by participating, donating, and/or volunteering to support our golf tournament.

This year's Third Annual Golf Classic is scheduled for **Mayfair Lakes Golf Club on September 17, 2015**. Mark it on your calendar and be sure to take part. For more information on how to register, or donate prizes, please contact Clara Chalifour at [cchalifour@bcits.org](mailto:cchalifour@bcits.org).

### **BCITS and KINSMEN FOUNDATION of BC working together and "OPENING DOORS TO INDEPENDENCE"!**

The Kinsmen Foundation and BCITS also provide many community services. Nationally, Kin Canada is currently helping Canadians with Cystic Fibrosis, and locally in BC, the aim is centered on helping people with disabilities. BCITS works with people with severe physical disabilities and helps them to live as well and as independently as possible by providing equipment and assistive technology to assist with managing electronic devices in the home. More information on BCITS may be found at [www.bcits.org](http://www.bcits.org).
