

Disability Alliance BC has been a provincial, cross-disability voice in BC since 1977. Our core services and activities include:

- Providing one-to-one services to people with disabilities.
- Working with community partners and all levels of government to advocate for needed systemic change.
- Designing and implementing new projects and programs to meet specific needs in the disability community, such as Tax AID DABC and the Disability Law Clinic.
- Providing educational workshops and webinars for community groups, government and individuals.
- Creating free publications and resources.

Our mission is to support people, with all disabilities, to live with dignity, independence and as equal and full participants in the community.
